CS1645/CS2045: Introduction to High Performance Computing (Fall 2021)
Department of Computer Science, University of Pittsburgh

Assignment #1: Sample Submission

Released: Sept 8, 2021 **Due:** 8:00 PM, Wednesday, Sept 15, 2021

Goal

Gain familiarity with the web-based assignment submission interface and the class' honor code.

Description

The assignment is trivial and is meant to familiarize you with the web-based assignment submission interface, in order to avoid last-minute problems or cases where you thought you properly submitted your assignment when you did not.

You are simply asked to submit two files:

1. A copy of the handout about examples of permissible and prohibited collaboration that you can find under FAQ on our class web page. For more on the academic honesty, please see below and the policies on the class web page.

2. A plain text, a doc or a pdf file with the following pledge:

   "Computer Scientist's/Computer Engineer's Commitment
   I read the class handout about examples of permissible and prohibited collaboration and on my honor as a student in CS1645/CS2045 in the Fall 2021 term, I will neither give nor receive aid on my assignments and exams.

   $\langle sign\ your\ name \rangle\ \langle date \rangle$"

Please note that we will not grade your other assignments unless this assignment has been properly submitted.

Academic Honesty

The work in this assignment is to be done *independently*. Discussions with other students on the assignment should be limited to understanding the statement of the problem. Cheating in any way, including giving your work to someone else will result in an **F** for the course and a report to the appropriate University authority.

How to submit your assignment

We will use a Web-based assignment submission interface. To submit your assignment:

- Go to the class web page `http://db.cs.pitt.edu/courses/cs1645/current.term/` and click the `Submit` button.
- Use your pittID/username as the username and your PeopleSoft ID as the password for authentication. There is a reminder service via email if you forgot your PeopleSoft ID.
- Upload your assignment file(s) to the appropriate assignment (from the drop-down list).
- Check (through the web interface) to verify what is the file size that has been uploaded and make sure it has been submitted in full. **It is your responsibility to make sure the assignment was properly submitted.**

You must submit your assignment before the due date (**8:00 PM, Wednesday, Sept 15, 2021**). There are no late submissions.
